1. Purpose

The purpose of this policy is to reduce the risk of sensitive or critical business information being disclosed, lost or tampered with or by unauthorized personnel and the threat of security breaches.

2. Scope

This policy applies to all employees, Vendors, Employees of Third Parties and Consultants working for Acronotics.

Terms & Definitions

Abbreviation	Full Form
CISO	Chief Information Security Officer
Individual Users / Employees	Employees / Users in Acronotics Premises
Information Processing Facilities	Any information processing system, service or infrastructure, or the physical locations housing them

3. Policy

3.1 Roles and Responsibilities

Role	Responsibility
All Individuals / Acronotics Employees	Keep the Desk Clean, Lock the system while not in use
CISO	Educate the users on this procedure and ensure adoption Conduct Audit as & when required
Manager IT	Automate Screen Lock functions in personal computers

3.2 Keep the Desk Clean

- At the end of each day, or when desks/offices are unoccupied, any information classified as confidential and restricted must be locked away in, Lock & Key cabinets or in fire proof cabinet, as appropriate.

- Paper and Computer media should be stored in safe place when not in use, especially beyond working hours in Lock & Key cabinets or in fire proof cabinet, as appropriate.
- Sensitive or critical business information should be locked away (ideally in a fire-resistant safe or cabinet) when not in use.
- Employees should not leave the documents or removable media that may contain business information, unattended.
- Confidential information should never be sent to a network printer, without an authorized person retrieving it so as to safeguard its confidentiality during and after printing.
- Documents when printed in the network printer should be cleared/collected by the user immediately.

3.3 Keep the Screen Locked

- All computers shall have password protected screen savers activated or equivalent means of control when unattended.
- Whenever you leave your desk and your Laptop is switched on, it is essential that you ALWAYS 'lock' your screen.
- Locking your screen not only prevents someone else from using your PC, which is logged on in your name, but it also prevents someone from reading confidential information left open on your screen.
- If working on sensitive information, and you have a visitor to your desk, lock your screen to prevent the contents being read.
- All active application sessions should be terminated upon completion of the work.
- Data/ files classified as "Confidential "and Restricted "in must not be saved on the desktop.
- Employees are supposed to organize their data in a structured way with proper naming and versioning.
