1. Purpose

A process will be in place to manage the Human Resource activities of Acronotics, to ensure;

- That all employees, contractors and third-party users understand their responsibilities, and are suitable for the roles they are considered for, and to reduce the risk of theft, fraud or misuse of facilities.
- That all employees, contractors and third-party users are aware of information security threats and concerns, their responsibilities and liabilities, and are equipped to support organizational security policy in the course of their normal work, and to reduce the risk of human error.
- That all employees, contractors and third-party users exit an organization or change employment in an orderly manner.

2. Scope

This policy is applicable to Human Resource department to manage activities related to Human Resources at Acronotics in accordance with its corporate values and to comply with the employment legislation and code of conduct.

3. Terms & Definitions

Abbreviation / Term	Full Name/ Description
HR	Human Resources Department in Acronotics Department responsible for Recruitment in Acronotics
IS Team	Information Security Team
MF	Management Forum

4. Policy

4.1 Information Security Responsibilities of Employees

The HR in consultation with Information Security Forum shall identify security responsibilities for employees and communicate the same. This shall include any general responsibilities for implementing or maintaining security policy, legal responsibilities and rights as well as any specific responsibilities for the protection of assets (such as employer's data) or for the execution of particular security processes or activities internal or external to the organization.

4.2 Employee Background Verification

4.2.1 Regular Employees

The Recruitment / HR shall carry out post-Employment verification checks on members after they join Acronotics.

For specific cases/Projects, employment verification checks are done prior to joining date also. This shall be taken care by HR Department. This shall include the following

- Verification of satisfactory reference checks from the previous employer(s) (mandatory)
- Verification of Highest Education (mandatory)
- Independent identity checks (passport or similar document)

4.2.2 Third-party Employees

Departments dealing with Vendors to hire people on contract through third-party shall be responsible for conducting background verification for contractors or any third-party they employ or receive a service from, be it on a long- or short-term basis.

4.3 Non-Disclosure and Confidential Agreements

- The HR Department shall include "confidentiality agreement" as part of the initial terms and conditions of employment for all prospective employees and third parties.
- HR Department shall oversee this inclusion of agreement and shall periodically check for compliance.
- The HR Department shall review the 'Confidentiality Agreement' periodically when there are changes to terms of employment or contract, particularly when employees are due to leave the organization or contracts are due to end.

4.4 Information Security Awareness Training

- The HR Department shall identify and arrange for appropriate training and regular updates of organizational security policies and procedures for all employees and contractors of Acronotics under guidance from HR Department/CISO.

- The HR upon hiring employees shall coordinate with IT Manager to provide them with Acronotics.

Specific orientation and on-going training to maintain their security knowledge, skills, abilities, and awareness to the level required to perform their assigned responsibilities effectively.

- The awareness and training programs shall be structured to effectively raise the technical and management skill levels of personnel. Formal training shall be provided for users who have special security responsibilities.
- The HR upon hiring employees shall obtain the declaration on the term "Proprietary Rights" shall mean all trade secret, patent, copyright, mask work and other intellectual property rights or "moral rights" throughout the world. "Moral rights" Refers to any rights to claim authorship of an Invention or to object to or prevent the modification of any Invention, or to withdraw from circulation or control the publication or distribution of any Invention, and any similar right, existing under judicial or statutory law of any country in the world, or under any treaty, regardless of whether or not such right is denominated or generally referred to as a "moral right."

4.5 Employee Exit

- This process will apply to both voluntary and involuntary separations.
- HR will provide a process to make it easier for departments to ensure a smooth transition for separating or transferring employees.
- All separating employees will complete employee exit formalities.
- The employee will return all assets issued to them during their term of employment and same will be updated in the asset registers. Also, their access rights to various Acronotics.

/Client systems will be disabled by IT Team.

4.6 Disciplinary Process

- The HR Manager/ HR Department in coordination with CISO/ Information Security Function shall ensure that non-compliance with the information security policies, procedures and standards are investigated and disciplinary measures are enforced.
- All employees who indulge in misconduct or a security breach shall be subjected to the HR disciplinary process after verification and collection of evidence.
- Any serious misconduct or significant violation of Information security policies shall be referred to the Entity Disciplinary Committee for further action.
- The formal disciplinary actions shall be decided considering the following factors:
 - Nature and gravity of the breach
 - Its impact on business

- Whether it's a first or repeat offence
- Whether the violator was properly made aware and trained
- Relevant legislation
- Employment contract etc.

5. Code of Ethics

According to Acronotics Code of Ethics, Acronotics is committed to protecting employees, partners, vendors and the company from illegal or damaging actions by individuals, either knowingly or unknowingly. When Acronotics addresses issues proactively and uses correct judgment, it will help set us apart from competitors.

Acronotics will not tolerate any wrongdoing or impropriety at any time. Acronotics will take the appropriate measures to act quickly in correcting the issue if the ethical code is broken.

6. Third party and contractors

Third party / Contractors must comply with Acronotics relevant policies, standards and procedures shall be enforced through contracts, notably:

- Acronotics 's Information Security policy.
- Acronotics 's Acceptable Use policy
- Acronotics 's retains the right to audit third party premises and security practices to ensure their compliance with contract terms and Acronotics policies. All related third-party information, security policies must be made available to Acronotics.
- Contracts shall document third party security roles and responsibilities for Information Security
- Third Party/ Contractors shall comply with local, legal/regulatory requirements including privacy and data protection.
- Acronotics requires that third party reports all security breaches, including confidentiality and privacy violations, in a timely manner to allow for appropriate breach containment and eradication.
- Non-Disclosure and Confidentiality agreement to be signed as part of the initial terms and conditions of employment for all employees of third parties/ vendors.
- Contracts with service providers delivering critical services to Acronotics shall include solutions that protect Acronotics operations from failures. Critical service failure beyond Recovery Time Objective (RTO) shall be deemed as a direct result of the providers inability to meet its contract obligation.

Acronotics retains the rights to access its information under the third party's custody within 48 hours following the submission of a request for such an access. The third party cannot deny the access to information requested by Acronotics because of late or disputed payment for services.

Third party shall ensure that its employees have a clear understanding of the contractual security controls agrees upon. Suppliers provide authorization towards background check of their employees deployed Acronotics.

Third party shall comply with any Acronotics request for a Background check of its employees and sub-contractors, if so, required by their duties.

Definition, reporting and monitoring of the third parties service performance levels must be agreed upon in the contract.
